Introduction

1.1 Company Profile

Organization Overview

Tata Power Delhi Distribution Ltd. is a joint venture of Tata Power Company and the Govt of NCT of Delhi, with majority stake being held by Tata Power. It distributes electricity power in North & North-West Delhi with area value of 510 sq. km and serves a population of 50lacs.

Delhi Region at a Glance
TPDDL started its operations on July 1, 2002 post the unbundling of erstwhile Delhi Vidyut Board. Tata Power Delhi Distribution Ltd has been the frontrunner in implementing power distribution reforms in the capital city and is acknowledged for its consumer friendly practices. The Aggregate Technical & Commercial (AT&C) losses in TPDDL areas have shown a record decline. Today they stand at 08.40% (As on March 31, 2018) which is an unprecedented reduction of over 84.15% from an opening loss level of 53%.

On the power supply front too, TPDDL areas have shown remarkable improvement. The company has embarked upon an ambitious plan to implement high-tech automated systems for its entire distribution network. Systems such as SCADA, GIS, OTS and ADMS are the cornerstone of the company’s distribution automation project. To fight against power theft, modern techniques like High Voltage Distribution (HVDS) System, LT Arial Bunch Conductor and Armored Conductor have been adopted.

TPDDL has to its credit several firsts in Delhi: SCADA controlled Grid Stations, Automatic Meter Reading, GSM based Street Lighting system and SMS based Fault Management System. To ensure complete transparency, the company has provided online information regarding billing and payment details to all its 1 million consumers. This happened in the first year of operations itself. TPDDL believes in providing more value than just electricity and is even rewarding its consumers for timely payment.

As a step towards captive power generation, TPDDL has established a 108MW gas based combined cycle power Plant at Rithala, North Delhi in its distribution area.

TPDDL has won several accolades for its pioneering efforts in power distribution reforms. Tata power-DDL is
the first power distribution utility of India to have received the prestigious awards in the international category by winning the 2008 Edison Award and for Policy Advocacy in 2009. Some of the other key recognitions include international Palladium Balanced Scorecard Hall of Fame award- 2008, SAP Ace award 2008; UPN, USA metering award; Asian Power Award 2011 (for 5 consecutive years), Asia’s Best Employer Brand Award 2011, India Power Award- Research & Technology, Falcon Media Group- Best Performing Utility (Urban) and the Asian Power Most Inspirational CEO of the Year 2008 award.

Tatapower-DDL has also been conferred the 'National Award for Meritorious Performance' thrice by the Ministry of Power, Government of India for outstanding performance in power distribution for 2004-2005, 2005-06 and 2008-09. To be awarded the prestigious CII EXIM Award for 'strong Commitment to Excel', Tatapower-DDL is also the youngest and first power utility in India to do so. Also, It is the only distribution utility to receive the ISO 9001, ISO 14001 and OHSAS 18001 certification.
Effectiveness Survey
Objective
- To assess effectiveness of various HR systems and processes
- To identify areas for improvement
- Capture expectations of internal customers

Methodology
- Capturing of primary data through online administration of questionnaire

Target Respondents
- All employees

• Sample Size
  - 90 – Keshav Puram
HR Customer Satisfaction Score
